

Hareesh Babu D

AI & Machine Learning Enthusiast

+91 90430 60923 — Email — Portfolio — LinkedIn — GitHub — Chennai, India

PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning student with hands-on experience developing AI-powered applications, responsive websites, desktop software, natural language processing solutions, and computer vision systems. Skilled in Python, SQL, JavaScript, React.js, HTML5, CSS3, Git, and GitHub. Passionate about problem-solving and building practical, scalable, and user-focused applications.

WORK EXPERIENCE

Data Analytics Intern

Careerschool HR Solutions

Dec 2024

On-site, Chennai

- Analyzed and preprocessed datasets containing over 10,000 records using Python to support data-driven reporting.
- Applied data-cleaning and interpretation techniques and created visual summaries of important trends.

EDUCATION

Panimalar Engineering College, Chennai

B.Tech – Artificial Intelligence and Machine Learning

2024–2027

CGPA: 7.8/10

PROJECTS

AI Resume Screening & Skill Gap Analyzer — Python, NLP

[View Project](#)

- Developed a system that compares PDF resumes with job descriptions to identify matching skills, missing skills, and candidate suitability.
- Implemented resume parsing, skill extraction, match-score calculation, gap detection, and personalized recommendations.

Stud V2 – Desktop Movie Tracker — React.js, Electron, TypeScript

[View Project](#)

- Built a desktop movie-tracking application with watchlists, category ratings, popup reminders, and an analytics dashboard.
- Added TMDb API support, Google OAuth configuration, runtime API settings, and reliability fallbacks.

Better Call Advoca – AI Legal Assistant — Python, NLP

[View Project](#)

- Developed an educational legal assistant that analyzes user queries and identifies relevant legal topics using NLP techniques.
- Implemented text analysis, chatbot logic, simplified explanations, and possible-action recommendations.

Virtual Mouse – Gesture-Controlled Cursor — Python, OpenCV

[View Project](#)

- Developed a webcam-based virtual mouse using real-time hand tracking and gesture recognition.
- Enabled touch-free cursor movement and click actions through computer vision techniques.

Personal Portfolio Website — HTML5, CSS3, JavaScript

[View Source](#)

- Designed and developed a responsive personal portfolio website to showcase projects, skills, experience, certifications, and resume.
- Implemented responsive navigation, smooth scrolling, animated skill indicators, and clickable contact links.

YouTube Homepage Clone — HTML5, CSS3

[View Project](#)

- Built a responsive YouTube homepage clone using HTML5 and CSS3 to strengthen front-end web development skills.
- Recreated the header, sidebar, search interface, video grid, thumbnail cards, and channel details using Flexbox and CSS Grid.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript

Web Technologies: HTML5, CSS3, Javascript

AI / NLP: Natural Language Processing, Computer Vision

Tools: Git, GitHub, VS Code

Languages: English, Tamil, Telugu, Hindi

CERTIFICATIONS

- Microsoft Azure Fundamentals AZ-900, Infosys Springboard, 2026 — Reinforcement Learning, NPTEL
- AWS Cloud Practitioner Essentials, NASSCOM — Diploma in Python Programming, Cyber Soft Solutions
- Cybersecurity Analysis & Design, NASSCOM — Data Fundamentals, NASSCOM
